### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The present invention is directed to a method of controlling a system for processing a plurality of data units stored on a storage medium. Independent claim 1 identifies the uniquely distinct features "determining which of the possible playmodes are actually available for actuation durinn playback of the data units on the storage medium, and generating an on-screen display menu displaying the actually available playmodes to thereby provide to a user, during the PLAY mode of operation, an opportunity to select another one of the actually available playmodes, the plurality of playmodes including a standard playmode representing a default sequence, a random playmode representing a random sequence and programmed playmode representing a sequence specified by a user, without interrupting playback of a current sequence of data units." The closest prior art, Hickey (US Pat. No. 5,475,835) either singularly or in combination, fail to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
